#### Safety Instructions

Remember that the blades are <u>VERY SHARP</u>; be careful when handling and operating the machine to keep hands away from the cutting edges.

#### Operation of Easy Chopper TM

- 1. Place the chopper on a good firm work surface.

- 3. Prepare the produce to be chopped (core, cut, slice, wedge to your specifications).
- 4. Lift HANDLE and place the produce on the blades.
- 5. <u>Remove hand/fingers from the cutting area and with a strong, quick thrust, bring the PUSH BLOCK down to force the produce through the BLADES. Lift and repeat.</u>
- 6. Clean the machine after chopping is completed using cleaning instructions below.
- **Caution**: Do not attempt to chop produce larger than the opening in the BLADE HOLDER.

**Note:** Since BLADE AND HOLDER ASSEMBLES for different sized cuts are interchangeable, you may have more than one set available for use. <u>BEFORE CHOPPING</u> be sure that the PUSH BLOCK is the correct one to use for the cutting size desired. Gently lower the PUSH BLOCK onto the BLADE AND HOLDER ASSEMBLY to see that the <u>PUSH BLOCK GUIDE rests on the BUMPERS</u>. If it does not, something is wrong and must be corrected before chopping produce.

## **Chopping Tips**

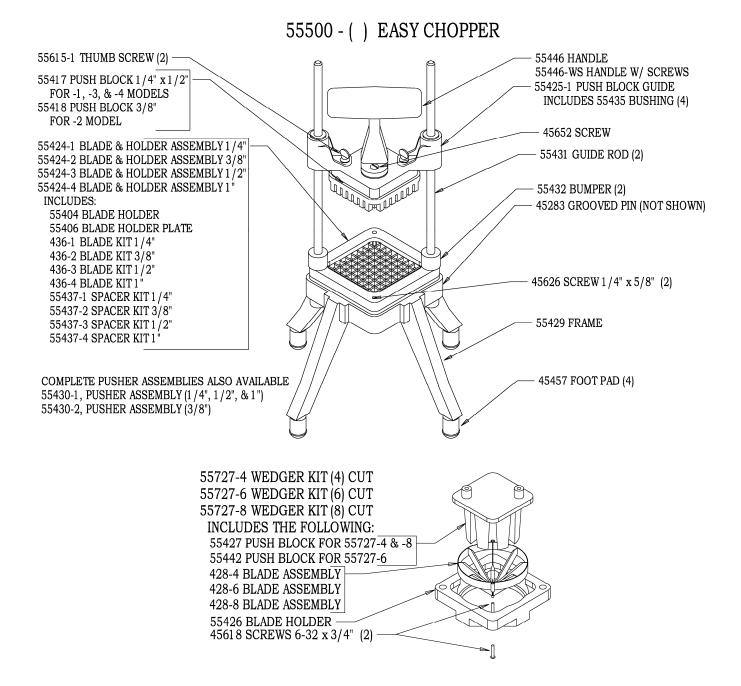

Cut produce before chopping and place a <u>cut surface against the BLADES</u>. Onions and tomatoes dice best if cut from top to bottom. They may be cut in half, or if smaller dices are desired, they can be cut several times in this direction.

### To Lubricate

When needed, lubricate the GUIDE RODS with Mineral Oil, Food Grade Grease, or rub them with Paraffin. DO NOT LUBRICATE WITH COOKING OIL – IT GETS STICKY!

#### TO REPLACE BLADES OR BLADE SPACERS

If necessary, the BLADES and/or BLADE SPACERS can be replaced. To do this, follow Instruction 5 of TO CLEAN.
